Safety and travel workbook

Keep practical essentials organized

Practical planning support only. Not a veterinary diagnosis, official registration or legally recognized travel passport.

1. Run a puppy home safety walkthrough

Spot practical household hazards before arrival

[ ] 1. Walk room by room at puppy height

[ ] 2. Check cables, medicines, cleaning supplies and small objects

[ ] 3. Plan barriers for stairs, balconies or open water

[ ] 4. Confirm emergency contact information is easy to access

2. Prepare a puppy travel packing list

Bring the information and supplies you need

[ ] 1. Check local travel and identification rules from official sources

[ ] 2. Pack current care supplies and owner controlled contact details

[ ] 3. Keep veterinary documents available without exposing them publicly

[ ] 4. Confirm transport safety requirements for the journey

3. Create an emergency contact card

Find the right people quickly when needed

[ ] 1. Add the usual clinic and an emergency clinic

[ ] 2. Add a trusted caretaker contact with permission

[ ] 3. Note what records the clinic may need

[ ] 4. Keep the card updated and accessible offline

4. Make a missing puppy information plan

Know what to do before an urgent situation happens

[ ] 1. Confirm official microchip and keeper registration details separately

[ ] 2. Save recent clear photos in a safe location

[ ] 3. List the correct local authority or registry contact process

[ ] 4. Avoid publishing sensitive owner details unnecessarily

Open this tool online:

5. Prepare for care during a power or network outage

Keep essential information available offline

[ ] 1. Export a recent summary of important care records

[ ] 2. Store emergency contacts offline

[ ] 3. List essential supplies and any approved instructions

[ ] 4. Check the printed copy for outdated information
