PUPPY PASSPORT / FREE TOOLKIT

Development and training workbook

Record observations and involve qualified professionals

Practical planning support only. Not a veterinary diagnosis, official registration or legally recognized travel passport.

1. Start a positive puppy experiences log

Notice what your puppy handles comfortably

[ ] 1. Describe the environment and what the puppy chose to do

[ ] 2. Look for signs of comfort or discomfort without forcing contact

[ ] 3. Keep exposures gradual and appropriate to veterinary advice

[ ] 4. Ask a qualified trainer for help with persistent fear

2. Prepare questions for puppy training class

Choose support that suits the puppy

[ ] 1. Ask how the trainer manages fear and stress

[ ] 2. Check hygiene and vaccination policies with the provider

[ ] 3. Ask about the use of reward based methods

[ ] 4. Record what you want to work on together

3. Build a gentle routine plan

Make care predictable for the household

[ ] 1. List existing meal, rest and outside routines

[ ] 2. Choose one easy positive habit to work on

[ ] 3. Agree how family members will respond consistently

[ ] 4. Review outcomes rather than counting clicks or streaks

4. Make a puppy milestone photo story

Create a useful history the family will enjoy keeping

[ ] 1. Select a few dated photographs with clear attribution

[ ] 2. Write short factual captions about each stage

[ ] 3. Keep private family images access controlled

[ ] 4. Share an owner approved summary only when genuinely useful

5. Record behavior questions for a specialist

Explain context without attaching labels to the puppy

[ ] 1. Describe what happened before and after an event

[ ] 2. Note the location, date and relevant circumstances

[ ] 3. Avoid guessing diagnoses or assigning blame

[ ] 4. Bring the observations to a qualified professional
